

Annex B: About the theme, ‘The Power in Us’

Light to Night Singapore 2026 marks the 10th edition of the festival. The festival returns to shine a spotlight on the strength of community, the richness of diverse perspectives, and the connections forged when people gather to experience and co-create art. This edition running from 9 to 31 January 2026 is extended across four vibrant weekends for the first time and explores how the power of unity can shape shared experiences and spark new possibilities. It is a festival dedicated to the collective human spirit.

Anchored in the theme “The Power in Us”, Light to Night Singapore 2026 invites all to reflect on shared histories, embrace dialogue, and celebrate the collective human spirit that has defined the festival over the past 10 years.
