

ABOUT NATIONAL GALLERY SINGAPORE

UNVEILING MODERN SINGAPORE AND SOUTHEAST ASIAN ART

National Gallery Singapore is a visual arts institution which oversees the largest public collection of modern art in Singapore and Southeast Asia. Situated in the heart of the Civic District, the Gallery is housed in two national monuments—City Hall and former Supreme Court—that have been beautifully restored and transformed into this exciting venue.

Reflecting Singapore’s unique heritage and geographical location, the Gallery features Singapore and Southeast Asian art from Singapore’s National Collection in its long-term and special exhibitions. The Gallery also works with international museums to jointly present Southeast Asian art in the global context, positioning Singapore as a regional and international hub for the visual arts.

In 2016, the Gallery won the awards for “Best Attraction Experience”, “Breakthrough Contribution to Tourism” and “Best Customer Service (Attractions)” at the prestigious Singapore Tourism Awards for its role in adding to the vibrancy of Singapore’s tourism landscape.

Senior Manager (IT-Business Intelligence)

KEY RESPONSIBILITIES

Reporting to the Chief Digital & Information Officer (CDIO), the incumbent will help improve business efficiency and shape the business goals of the Gallery and Singapore Visual Arts Cluster (SVAC) sister organizations including the Singapore Art Museum (SAM) and the Singapore Tyler Print Institute (STPI) by uncovering insights from massive amounts of data.

- Be part of the SVAC team to define data needs, collect, organize and analyze data from various sources to support business modelling.
- Deliver key insights and analysis on current performance and growth, as well as customer service and quality.
- Apply emerging technologies like machine learning, artificial intelligence and spatiotemporal analytics to achieve the business objectives.
- Support business divisions and IT team on data projects and provide guidance and consultation on projects in active development as needed.
- Provide advice and consulting on the latest research and technologies to enhance the quality of data collection and analytics.
- Communicate, collaborate and work effectively with different business units within the Gallery and with the Singapore Visual Arts Cluster sister organizations.

REQUIREMENTS

- At least 3 years of relevant data science industry experience.
- Possess positive attitude and good communication and writing skills.
- Able to work independently and under pressure with minimum supervision.
- Advanced skills in SQL and DAX. Proficiency in Python, R and Java is an advantage.
- Familiarity with SFDC, Tableau, Power BI and Microsoft productivity tools is an advantage.
- A strong team player with the ability to create and maintain strong working relationships within the organization and with external vendors and partners.
